		RP-SDUC16GAK	16GB	NG
Lexar	Professional 600x SDXC UHS-I 90MB/s	LSD128CRBNA600	128GB	NG
		LSD64GCRBNA600	64GB	NG

※1

※1 After repeated use, the write performance of this card deteriorates. It is suggested that periodically audio files get transferred to a computer and the unit's ERASE FORMAT function is used prior to further recording use.

Notice:

The above cards were tested with this model. Cards labeled **NG** should not be used.

Over time, these specific cards may become unavailable.

At that time, it would be best to contact the CF/SD card manufacturer directly and have them suggest the model with the most similar specifications that is currently available which remains within the maximum capacity limit.
