

## PRODUCT OVERVIEW

The TEAC DVW/D11A duplicator is a stand-alone disc-to-disc DVD duplicator system that does not require connection to a computer. It duplicates a single master DVD to DVD media at up to 16X speeds, resulting in an exact replica of a 4.7GB disc, and duplicates discs to CD-R media at up to 48X speeds. The DVW/D11A automatically identifies source formats and replicates the content as required.

The DVW/D11A features 12 functions: Copy, Test, Test & Copy, Verify, Compare, Pre-scan, Disc Info, Select Source, Image, Edit Track, Setup, and Advanced Setup.

**MSRP DVW/D11A/KIT \$449.00**
