	300x	QCF30-4GB	4GB	
Buffalo	100x	RCF-R1G	1GB	

Notice:

The above cards were tested successfully with this model.

Over time, these specific cards may become unavailable.

At that time, it would be best to contact the CF/SD card manufacturer directly and have them suggest the model with the most similar specifications that is currently available which remains within the maximum capacity limit.

The above cards all tested successfully during normal recording situations.

However when the Sync Rec and Pre Rec functions must be used simultaneously, we suggest using the highlighted CF cards.
